

Forum of Adipose Tissue & Stem Cell

FATS BANGKOK

**MAY
17 - 19 2019**

**RAMATHIBODI HOSPITAL, BANGKOK
INTERCONTINENTAL BANGKOK, THAILAND**

**STATE OF THE ART CONGRESS
ON FAT GRAFTING TECHNIQUES
AND STEM CELL PROCEDURES**

FORUM OF ADIPOSE TISSUE & STEM CELL BRINGS ITS EXPERTISE TO BANGKOK IN MAY 2019

FATS STANDS FOR FORUM OF ADIPOSE TISSUE & STEM CELL, AND IT WAS ORIGINALLY CONCEPTUALIZED IN 2009. IT WAS BORNE OUT OF A NEED TO EDUCATE AS THERE WAS A GENERAL LACK OF KNOWLEDGE AND UNDERSTANDING AMONGST DOCTORS REGARDING FAT GRAFTING TECHNIQUES. FAST FORWARD NINE YEARS, AND AS MUCH AS AESTHETIC SURGERY HAS CHANGED, FATS HAS ALSO GROWN AND EXPANDED.

SLATED FOR NEXT YEAR, FATS 2019 ONCE AGAIN BRINGS US TO THE LAND OF SMILES. FATS BANGKOK 2019 WILL BE HELD FROM THE 19TH UNTIL THE 21ST OF MAY 2019. THE FOCUS INCLUDES AN EDUCATIONAL, WELL-ROUNDED PLATFORM WHICH INCLUDES 12 LIVE SURGERY DEMONSTRATIONS AND 12 INSTRUCTIONAL LECTURES. THE LATTER WILL FOCUS ON FAT GRAFTING AND STEM CELL TECHNIQUES FROM A PANEL OF INTERNATIONAL, WORLD-RENOUNDED FACULTY.

FATS PRESENTS AN EXCEPTIONAL OPPORTUNITY FOR DELEGATES TO LEARN MORE ABOUT FAT GRAFTING AND STEM CELLS, SUCH AS THE DIFFERENT TECHNIQUES PERFORMED BY FACULTY. FATS ENDEAVORS TO INSPIRE, AND IT IS OUR HOPE THAT DELEGATES WILL FEEL EMPOWERED TO DECIDE WHICH PROCEDURES THEY HAVE LEARNED AT OUR CONFERENCE BEST SUIT THEIR PERSONAL PRACTICE.

DELEGATES WHO CHOOSE TO ATTEND FATS HAVE AN ENRICHING OPPORTUNITY TO LEARN FROM SOME OF THE BEST DOCTORS IN THE FIELD. THE CONFERENCE TRULY IS AN OUTSTANDING EDUCATIONAL EXPERIENCE.

DEDICATED FAT GRAFTING AND STEM CELL APPLICATIONS CAN ALSO BE IDENTIFIED AND STUDIED DURING FATS, WHICH GIVES A MORE COMPREHENSIVE UNDERSTANDING OF HOW, WHEN DELEGATES LEAVE FATS, THEY CAN APPLY SUCH PROCEDURES WHEN ASKED BY THEIR OWN PATIENTS.

FATS PROVIDES THE OPPORTUNITY FOR NON-BIASED LEARNING FROM A DEDICATED SELECTION OF WORLD-CLASS FACULTY, MANY OF WHOM ARE PIONEERS IN THEIR SPECIFIC FIELDS OR THE MOST SOUGHT AFTER DOCTORS IN THEIR RESPECTIVE COUNTRIES.

THE FATS ACADEMY OF PROCEDURAL MEDICINE CONFERENCE SERVES AS A HANDS-ON PLATFORM FOR DOCTORS WHO ARE LOOKING TO LEARN BASIC TO ADVANCED FAT GRAFTING TECHNIQUES. THE LEARNING IN THE VARIOUS SURGERIES AND LECTURES IS PIVOTAL. ALL PROCEDURES ARE PERFORMED ON A REAL PATIENT, AND THERE IS A TRAINER THERE TO OFFER GUIDANCE, SUPPORT AND ASSISTANCE TO PARTICIPATING DELEGATES.

TURN EDUCATION INTO INSPIRATION. SIGN UP NOW FOR FATS 2019, OBSERVE THE PIONEERS, LEARN THE TECHNIQUES AND PUT THEM INTO USE AT YOUR OWN PERSONAL PRACTICE. TO LEARN MORE ABOUT FATS 2019, DROP US A LINE AT INFO@FATS.MY OR VISIT OUR WEBSITE FOR MORE DETAILS WWW.FATS.MY

FLASHBACK **FATS** BANGKOK 2018

FATS Bangkok 2018 was a smashing success. The conference brought with it the realization that this State of the Art Congress on Fat Grafting Techniques and Stem Cell Procedures, is truly expanding on a global scale.

The four day event in April 2018, was well attended by approximately 200 delegates from a range of backgrounds and a selection of diverse countries. FATS Bangkok 2018 received so much positive feedback, with many delegates stating it was the best FATS conference by far.

FATS Bangkok 2018 was lucky to welcome world-renowned conference speakers. As each speaker is an expert in their field, it was with both pleasure and awe to host Dr. Timothy Marten (USA), Dr. Sydney Coleman (USA), Asst. Prof. Kamol Wattanakrai (Thailand), Dr. Jae-Yong Jeong (Korea), Prof. Kotaro Yoshimura (Japan), Dr. Florencio Lucero (Philippines), Dr. Marco Klinger (Italy), Dr. Lee Kim Siea (Malaysia), Dr. Lee Pu (USA), Dr. Steven Cohen (USA), Dr. Tae Jo Kang (Korea), Dr. Nelson Piccolo (Brazil), Dr. Lim Ting Song (Malaysia) and Dr. Kasey Sung (Korea).

Delegates were delighted to be able to attend a conference of this caliber with so many pioneers in the field. Each conference speaker afforded the FATS delegates a glimpse into their area of expertise through Cadaver Demonstrations, Live Surgeries and a series of informative lectures on fat grafting innovation and techniques and stem cell procedures.

Performed at Chulalongkorn University, the Cadaver Demonstrations started off the learning activities of FATS Bangkok 2018. Graciously provided by the university, cadaver specimens allowed the panel of surgeons to demonstrate various procedures including SMAS Facelift, Upper and Lower Blepharoplasty for Asians, Fat Grafting for Facial Rejuvenation and Nasal Anatomy in Asian Rhinoplasty.

FATS Bangkok 2018 once again used the facilities at Ramathibodi Hospital for Live Surgery Demonstrations. Considered the most prestigious medical school in all of Thailand, Ramathibodi Hospital at Mahidol University provided a completely professional setting and advanced operating theater which hosted the Live Surgery Demonstrations.

FATS Bangkok 2018 was beyond pleased to welcome back Dr. Sydney Coleman. Dr. Coleman is one of the most recognized plastic surgeons worldwide and has been an integral part in elevating the FATS platform. Dr. Coleman is often considered the "Father of Modern Fat Grafting" as he was the pioneer of a very successful method of fat grafting. Known as LipoStructure or Coleman Fat Grafting, the technique has become the basis for most surgeons when it comes to fat grafting procedures in their own practices.

Fat Grafting Techniques and Stem Cell Procedures have gained a lot of popularity in Thailand in recent years, which no doubt piqued the interest of so many of the delegates from Thailand this year. Bangkok continues to be an excellent choice as the hub to facilitate our annual FATS conferences.

FATS is looking forward to the future and the further development of the fat grafting field. With a strong medical faculty onboard and the continued support and interest of members, together we can forge new paths in Fat Grafting Techniques and Stem Cell Procedures together.

FLASHBACK FROM DELEGATES OF FATS BANGKOK 2018

Dr. Thipwimol Pakornwanitcha, Thailand

I love FATS Bangkok 2018! I've wanted to attend this conference for two years, but wasn't able to as I had other duties. Now that I'm here, I'm so happy to be able to listen to so many famous speakers as well as learn new techniques for my practice as fat transfer is my major procedure. I loved Dr. Coleman's cadaver demonstration, and I also enjoyed Dr. Piccolo's live surgery demonstration on Fat Grafting to Burn Scars.

Something like this is difficult and rare, and watching it live was amazing. I think he does a lot to give confidence back to patients and improve their quality of life. I was really surprised by the procedure. I would like to say that I really love the FATS Bangkok conference. Everyone attending FATS is very kind and the conference is well organized and executed. It really is very good!

Dr. Lim Ting Song, Malaysia

It is the first time that I have attended FATS. I think the conference is really great. I'm an Aesthetic Physician and I don't do a lot of surgical procedures, but this conference is a real eye-opener. It is interesting to look at how the surgeons are performing procedures. There are a lot of similarities and differences in our philosophies and approach, but we all have the end goal of actually helping someone look prettier or younger. Nowadays, the approach is to make the look more natural. This is a really big topic in Aesthetic Medicine right now, as we move away from an overdone or plastic look. I think FATS Bangkok 2018 is awesome in the way that the conference has combined both Cadaver Demonstrations and Live Surgery demonstrations. I think this is a really good way to show us exactly what the surgeons do. This is a really good way for us doctors to exchange ideas, and also working together closely for the years to come.

Dr. David Topchian, Australia

As someone who has attended FATS for the first time, I find the conference valuable on different levels. It is great to be able to see the pioneers in these procedures in one place at one time and be able to ask questions. I've learned a lot and I will be changing my practice and improving when I get home to Australia.

Dr. Kampee Karanapakorn, Thailand

This is my third time attending FATS. This is a very interesting conference with a lot of excellent research. In the future, it would be good to focus on other parts. Maybe Breast Augmentation with fat is going to be interesting for us to see.

Dr. Stanley Loo, New Zealand

I've learned quite a few tips on top of what I normally do, so I think that's been really helpful. The Live Surgery demonstrations are a great way to add on to what I do as well as refine the results. It has been very useful seeing other people operate. While this year has been focused a lot on the face, I think it would be great in the future to focus on a different part of the body with regard to Fat Grafting techniques.

FLASHBACK FROM DELEGATES OF FATS BANGKOK 2018

Dr. Florencio Lucero, Philippines

This is my third time attending FATS, and I'm really glad I came. I like the speakers. They provided us with very informative slides, technique, and also updates on what is happening with FATS.

A conference like FATS is really good for up and coming surgeons or practitioners because the future is really FATS. There will be a lot of potential that is still in store for Fat Grafting and Stem Cells that is yet to be discovered. The "mystery" of the potential will continue to come out in the future.

I've been a plastic surgeon for 38 years, and when I started doing Stem Cells from fats in 2006, I said that I wouldn't be able to enjoy the fruits of my labour, however now, I'm seeing the bud. The bud is growing, becoming a flower and slowly becoming a fruit. The ripeness is yet to come.

Dr. Tae-Jo Kang, South Korea

I have attended FATS a number of times because I find this conference very useful. The field of Fat Grafting and Stem Cells is very large, so it is necessary to learn all that we can regarding techniques and surgeries. I look forward to next year and to seeing some fresh, new content in the FATS curriculum.

Dr. Dilip Gahankari, Australia

I've attended FATS several times, and in fact, I was here for the first-ever meeting of FATS. The simple fact that I enjoy coming here means that I get a lot of value out of this meeting, particularly learning from the bigwigs in the field of Fat Grafting and cosmetic surgery. Listening to Dr. Tim Marten and Dr. Sydney Coleman is a real bonus of attending FATS. The Live Surgery demonstrations are very much an educational experience when you compare it to direct lectures. From my point of view, as a plastic surgeon who has been practicing for 20 years or more, I always get some new answers to surgical techniques that I would like to adapt to my practice as well as things that I probably wouldn't like to adapt. I also like to see how efficiently things can be done, so it's not just the technique but it is also time efficiency, the organization of the surgery and the surgical techniques, the positioning ... all of those little things that you normally don't see in presentations give us a lot to learn. These live demonstrations are great as they make all of us understand the technique better, as well as give the confidence to actually perform a surgery such as this

Dr. Terry Yen, Taiwan

This is my first time to FATS, and I found the conference very useful and I've met a lot of legends in the medical field. My favorite part of the conference has been the Cadaver Demonstrations. These have been really impressive as I can learn a lot of anatomy from the dissection and discuss with my colleagues after. I plan to come to FATS again next year, and I will suggest to others to join FATS as it's really good to learn the latest concepts in Fat Grafting and Stem Cell usage.

Dr. Khoo Yan Teng, Malaysia

I find the FATS conference very amazing as this is my first time attending. FATS is very useful for myself, as I'm a plastic surgeon. There is so much to takeaway from this conference. For example, the outstanding speakers like Dr. Sydney Coleman and his techniques with Fat Grafting. Dr. Timothy Marten with his very amazing result of the Facelift, and all of the other Cadaver and Live Surgery demonstrations have also been wonderful. I plan to come next year, and it would be great to see more cadaver dissection and demonstrations.

FLASHBACK

FATS BANGKOK 2018

FLASHBACK

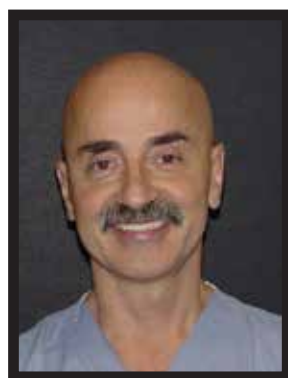

FATS BANGKOK 2018

STATE OF THE ART CONGRESS ON FAT GRAFTING TECHNIQUES AND STEM CELL PROCEDURES

DR PATRICK L TONNARD
Plastic Surgeon
(BELGIUM)

DR GIOVANNI BOTTI
Plastic Surgeon
(ITALY)

DR ARIS STERODIMAS
Plastic Surgeon
(GREECE)

PROF KOTARO YOSHIMURA
Plastic Surgeon
(JAPAN)

PROF GUY MAGALON
Plastic Surgeon
(FRANCE)

DR KASEY SUNG
Cosmetic Fat Surgeon
(KOREA)

DR LEE KIM SIEW
Plastic Surgeon
(MALAYSIA)

PROF WEI-GANG CAO
Plastic Surgeon
(CHINA)

DR YOON YONG-HYUN
Orthopaedic Surgeon
(KOREA)

PROF LIN TSAI-MING (TAIWAN)
Plastic Surgeon
(TAIWAN)

Dr Giovanni Botti (ITALY)

Giovanni Botti, m.d., comes from Salò, Lake Garda, Italy and is the head manager and the main surgeon of Villa Bella Clinic. He took part as faculty member to very many aesthetic surgery courses and congresses, organized by both Universities and Scientific Societies in more than 30 different countries. He also performed demonstrative surgical operations in various hospitals worldwide. He is the author of four complete books and wrote chapters of several other textbooks together with 74 scientific articles published by the most well-known international medical reviews. He taught several years at the post-graduate aesthetic plastic surgery classes of various Universities both in Italy and in many other countries. He has been clinical professor of Plastic Surgery at the University of Verona from 2002 up to now. He is honorary member of various national plastic surgery societies. Dr. Botti was awarded for his contributions to the improvement of Aesthetic Surgery by many national Societies. He was the first President of the Italian Society of Aesthetic Plastic Surgery (AICPE), of which is still the honorary President. He is National Secretary of ISAPS for Italy and an ISAPS travelling professor.

Dr Aris Sterodimas (GREECE)

Dr Aris Sterodimas is the Head of the Plastic Surgery Department of Metropolitan General Hospital, in Athens, Greece. He is the director of Regenerative Surgery Lab in Rio de Janeiro, Brazil and he is considered as the pioneer of adipose stem cell application in the field of Plastic & Reconstructive Surgery. Dr. Sterodimas served then as chief resident of Plastic & Reconstructive Surgery Department in the world renowned center of Plastic and Reconstructive Surgery, Ivo Pitanguy Institute, in Rio de Janeiro, Brazil. From 2005, he has been actively involved in research of Stem Cells application in the field of Aesthetic Plastic Surgery and Regenerative Medicine. His PhD thesis is on Adipose Tissue Engineering in Plastic and Reconstructive Surgery. Dr. Sterodimas is a Board certified plastic surgeon after completing successfully the National Board Examination, member of the ISAPS, member of IPRAS, member of the HESPRAS and member of AeXPI. He has published 60 peer reviewed articles in the most important Plastic Surgery journals and has contributed in the writing of 20 book chapters. Dr. Sterodimas serves as Visiting Professor and honoured guest lecturer at Institutions around the globe and has participated as a faculty speaker representing Greece in the biggest events of Plastic Surgery in the last 5 years. Plastic surgeons from 12 different countries have visited his department for training and observation of the state of the art procedures performed by him and his team. He is the Editor of 'Adipose Stem Cells and Regenerative Medicine' book by Springer, which is in the top 25% sold medical books in 2015.

Prof Guy Magalon (France)

Prof Guy Magalon is a board certified plastic & reconstructive surgeon, with more than 40 years experience in the public sector in the city of Marseille. He is the President of the 'Fondation de l'Avenir' whose ambition is to fund the most promising clinical studies of the future. He has a passion for cell therapies and Marseille has been paving the way for the success of the use of stem cells in various fields such as: hand scleroderma, non healing wounds, burns etc. He conducts courses worldwide in microfat, nanofat grafting and regenerative therapies.

Dr Patrick L Tonnard (BELGIUM)

Dr. Patrick L. Tonnard graduated in medicine from Ghent University in 1987. He was a founder partner of the Coupure Centre for Plastic Surgery and in 2005 also became a founder partner of 't Zwin Medical Centre in the Dutch town of Oostburg. With his colleague Dr. Verpaele he set up the 'Aesthetic Medical Centre 2' (E:MC²) in 2007. This is an exclusive private surgical centre for aesthetic surgery in Sint-Martens-Latem.

Dr. Tonnard is the author of approximately fifty scientific publications, has presented over two hundred scientific papers at national and international conferences, and made numerous contributions to scientific articles and books. He is much in demand as a speaker and moderator at international conferences and is an authority on surgical rejuvenation of the face.

Together with Dr. Verpaele he developed the revolutionary MACS lift, a minimally invasive facelift technique that aims to produce the best and most natural result with rapid recovery and minimal complications. This achievement has earned him and Dr. Verpaele an international reputation. In 2004 and 2007 they contributed two scientific chapters about this surgical technique, written for plastic surgeons all over the world: The MACS-lift Short Scar Rhytidectomy, 2004, St Louis; and Short Scar Face-lifting, Operative Strategies and Techniques, 2007, St Louis.

Dr. Tonnard has also written for a less specialised public: he contributed to the book Van top tot teen – alles over plastische chirurgie [From top to toe – all about plastic surgery] by Hubert Tygat and in 2000 he published Schone Schijn. Een wegwijzer in de plastische chirurgie [Looking Beautiful. A guide to plastic surgery] which he wrote with the journalist Laurens de Keyser.

Prof Kotaro Yoshimura (JAPAN)

Prof. Kotaro Yoshimura is the Chairman of the Department of Plastic Surgery at the Jichi Medical University, Japan. He received his medical degree and doctorate from the University of Tokyo. His research interests cover skin/hair/scar biology, wound healing/angiogenesis, adipose stem cells and regenerative medicine. He has published more than 10 full articles in medline-indexed journals as well as several textbook chapters. He received a number of prestigious awards including the 38th Maliniac Lecturer in 2016 from the American Society of Plastic Surgeons (ASPS). Prof. Kotaro Yoshimura is currently co-editor of the Journal of Plastic Surgery and Hand Surgery (JPSHS) and President-elect of the International Society of Plastic Regenerative Surgeons (ISPRES).

Dr Lee Kim Siea (Malaysia)

Mr. Lee who graduated with the MBBS degree from University of Malaya had served as a Medical Officer in University Hospital Kuala Lumpur before becoming a Medical Officer in the Ministry of Health Hospitals. He had later went to UK and served as a Senior House Officer in Plastic Surgery in St. Lawrence Hospital, Chepstow, UK. Dr. Lee is a Fellow of Royal College of Surgeons of Edinburgh (FRCSEd) since 1990 and has completed the Overseas Trainee Diploma in Plastic Surgery from the Royal College of Surgeons of England back in 1996. He was admitted into the Academy of Medicine in 1996.

While undergoing the Royal College of Surgeons of England & British Association of Plastic Surgeons[®] Overseas Trainee Diploma in Plastic Surgery training program, he had served as the Senior House Officer in the Royal Preston Hospital and as a Registrar in the Charing Cross Hospital, the Queen Mary University Hospital and also in the St. George's Hospital, London.

Dr. Lee is a member of the Malaysian Association of Plastic Aesthetic and Craniomaxillofacial Surgeons, the Oriental Society of Aesthetic Plastic Surgery and the Malaysian Medical Association. He is also the member and the first Chairman of the Asian Aesthetic Breast Surgery Council.

A renowned speaker at international medical conferences, Dr. Lee had presented many papers in both local and international conferences, medical journals and symposiums on the latest technologies and methodologies of Aesthetic Plastic Surgery.

Prof Lin Tsai-Ming (TAIWAN)

Dr. Lin is one of the young generation plastic surgeons in Taiwan with well-training in plastic, reconstructive and aesthetic surgery at Kaohsiung Medical University. He is now actively in advocating of Micro-Autologous Fat Transplantation (MAFT) which was conceptualized in 2006 by him and fully executed by his innovative instrument MAFT-Gun. He travels all over the world to give lectures and enthusiastically shares the experience of how this new technique done and works by live surgery demonstration. Dr. Lin graduated from the Kaohsiung Medical University and obtained his PhD. degree with the thesis focusing on the isolation the Adipose-Derived Stem Cells (ADSCs) and then completed the fellowship at Michigan State University, US. He is now the active member of several societies: Taiwan Surgical Association, Taiwan Association of Plastic Surgery, Taiwan Association of Cosmetic Surgery, Association of Hyperbaric and Undersea Medicine, R.O.C. He is also an active member of the International of Plastic, Reconstructive and Aesthetic Surgery (IPRAS), International Society of Aesthetic Plastic Surgery (ISAPS) and Asian Facial Plastic Surgery Society (AFPSS). Dr. Lin is presently the director of the Charming Institute of Aesthetic & Regenerative Surgery (CIARS) in Kaohsiung, Taiwan and the assistant professor of Kaohsiung Medical University

DR Yoon Yong-Hyun (KOREA)

Dr Yoon is an orthopaedic surgeon from the Hallym Sacred Hearted Hospital. He obtained his diplomate in Osteopathic Manipulative Theory & Practice. He also obtained certification from the IROM-C (Interventional and Regenerative Orthopaedic Medicine Cetification). He currently practice ultrasound guided knee injection in his private practice, Incheon Terminal Orthopaedic Clinic.

Dr Kasey Sung (KOREA)

Dr Kasey Sung is the Director-in-Chief and Consultant of the Lilac Academy of Body Sculpting Surgery for Cosmetic Surgeons. He is a Diplomat of the International Board of Cosmetic Surgery, Vice President of the Korean Association of Stemcell Therapy, Fellow and Professor of the Korean College of Cosmetic Surgery, and Visiting Professor at the CHA University Medical School. Dr Sung has presented in many international conferences worldwide and is the author of LipoSculpting Surgery : The Art of Body Contouring. Since 2003, he has conducted many live surgery demonstrations and numerous workshops in South East Asian countries.

Prof Wei-Gang CAO (CHINA)

Prof Cao Wei-Gang is a certified-board plastic surgeon with Ph.D and M.D in Medicine and Surgery from the Shanghai Jiao Tong University. He is currently practising in the Department of Plastic & Reconstructive Surgery in Ninth Peoples Hospital, Shanghai. He is the Chairman of the Second Council of Liposuction and Fat Grafting in Medical Aesthetics of Chinese Association. He is also the Vice President in First COuncil of Fat Medicine, Chinese Association of Plastics & Aesthetics.

DAY 1

LECTURES & LIVE SURGERY DEMONSTRATIONS 17 May 2019, (Ramathibodi Hospital, Bangkok)

Session 1:

Live Surgery Demonstration

OT 1

Am 9.00–Am 9.15 (15 min)

Am 9.30–Am 11.30 (120 min)

Am 10.30–Am 11.00 (30 min)

Dr. Lin Tsai Ming (Taiwan)

The Technique of Precise Facial Fat Grafting Transplantation–Evolution from Evidence Based Medicine.

Coffee Break

OT 2

Am 9.15–Am 9.30 (15 min)

Am 9.45–Am 11.45 (120 min)

Dr. Kasey Sung & Dr. Yoon Yong Hyun (South Korea)

How to Manage Patient Safety & Comfort: Lipo Sculpture to Fat Harvesting, SVF Processing and Precise Ultra Sound Guided Knee OA Injection.

Special Lunch Key Note Lecture

Pm 12.00–Pm 1.00 (60 min)

Prof Guy Magalon (France)

Lunch Symposium Key Note Lecture

Session 2:

Live Surgery Demonstration

OT 1

Pm 1.00–Pm 1.15 (15 min)

Pm 1.30–Pm 3.30 (120 min)

Pm 2.30–Pm 3.00 (30 min)

Dr. Lee Kim Siea (Malaysia)

Simple Approach Facial Fat Grafting for Beginners.

Coffee Break

OT 2

Pm 1.15–Pm 1.30 (15 min)

Pm 1.45–Pm 3.45 (120 min)

Prof. Guy Magalon (France)

Stromal Vascular Fraction (SVF) : Preparation and Clinical Application for Scleroderma Hands

Session 3:

Stem Cell Lectures:

Pm 3.45–Pm 4.05 (20 min)

Pm 4.05–Pm 4.25 (20 min)

Pm 4.25–Pm 4.45 (20 min)

Pm 4.45–Pm 5.05 (20 min)

Dr. Daniel Looi Qi Hao (Malaysia)

Introduction to Stem Cells and Current State in Clinical Applications

Dr. Siow Yew Siong (Malaysia)

Application of Stem Cells in Osteoarthritis and Degenerative Disc

Dr. Chua Kok Seng (Malaysia)

Stem Cells–Derived Exosomes –The Next Wave in Regenerative Medicine

Mr. Sean Ng See Nguan (Malaysia)

Future of Medicine: From Cellular to Non–Cellular Treatment

DAY 2

LIVE SURGERY DEMONSTRATIONS 18 May 2019, (Ramathibodi Hospital, Bangkok)

Session 1:

Live Surgery Demonstration

OT 1

Am 9.00–Am 9.15 (15 min)
Am 9.30–Am 12.30 (180 min)

Dr. Giovanni Botti (Italy)
Facelift with Fat Grafting

Am 10.30–Am 11.00 (30 min)

Coffee Break

OT 2

Am 9.15–Am 9.30 (15 min)
Am 9.45–Am 11.45 (120 min)

Dr. Patrick Tonnard (Belgium)
Centro Facial Rejuvenation with Fat Grafting and Full Face Nanofat Needling

OT 3

Am 9.30–Am 9.45 (15 min)
Am 10.00–Pm 12.00 (120min)

Dr. Kotaro Yoshimura (Japan)
Fats with Threads Lifting

Pm 12.00–Pm 1.00 (120 min)

Lunch

Session 2:

Live Surgery Demonstration

OT 1

Pm 1.00–Pm 1.15 (15 min)
Pm 1.30–Pm 4.30 (180 min)

Dr. Aris Sterodimas (Greece)
Breast Augmentation by Cell Assisted Fat Grafting

Pm 2.30–Pm 3.00 (30 min)

Coffee Break

OT 2

Pm 1.15–Pm 1.30 (15 min)
Pm 1.45–Pm 3.45 (120 min)

Dr. Cao Weigang (China)
Facial Fat graft

OT 3

Pm 1.30–Pm 1.45 (15 min)
Pm 2.00–Pm 4.00 (120min)

Dr. Massimiliano Federico Brambilla (Italy)
Composite Techniques on Genital: Labia Minora+/-Majora Fat Graft

DAY 3

LECTURE & KEY PANELLISTS DISCUSSION 19 May 2019, (Intercontinental Bangkok, Thailand)

Session 1:

Am 9:00 – Am 09:30 (30 min)	Dr. Giovanni Botti (Italy) Fat Grafting and Facial Rejuvenation.
Am 9:30 – Am 10.10 (40 min)	Dr. Patrick Tonnard (Belgium) Centrofacial Rejuvenation: A New Paradigm in The Reconstruction of Youth.
Am 10.10–Am 10.30 (20 min)	Coffee Break & Photo Session

Session 2

Am 10:30 –Am 11:00 (30min)	Prof. Kotaro Yoshimura (Japan): Adipose Regenerative Surgery: Where are Going?
Am 11:00 –Am 11:30 (30min)	Dr. Patrick Tonnard (Belgium) Microfat, SNIF and Nanofat: from Volume Augmentation to cell
Am 11:30 –Pm 12:00 (30min)	Dr. Aris Sterodimas (Greece) Adipose Tissue Engineering: Present & Future:
Pm 12:00 –Pm 1:00 (60min)	Dr. Massimiliano Federico Brambilla (Italy) TBC
Pm 1.00 –Pm 2.00 (60 min)	Grand Lunch

Session 3

Pm 2:00 –Pm 2:30 (30min)	Dr. Giovanni Botti (Italy) Breast and Body Fat Grafting
Pm 2:30 –Pm 3:00 (30min)	Dr. Cao Weigang (China) Fat Grafting to Breasts
Pm 3:00 –Pm 3:40 (40min)	Dr. Aris Sterodimas (Greece) Regenerative Breast Surgery: an Analysis of 325 Consecutive Surgery
Pm 3.40–Pm 4.10 (30min)	Tea Break

Session 4

Pm 4:10 –Pm 4:40 (30min)	Dr. Cao Weigang (China) Body Contouring and Gluteal Augmentation with Fat Grafting.
Pm 4:40 –Pm 5:20 (40min)	Prof Kotaro Yoshimura (Japan) Basic Principle and Surgical Technique of Fat Grating:
Pm 5.20– Pm 5.50 (30min)	Dr. Lin Tsai Ming (Taiwan) The Value of Micro –Autologos Fat Transplantation – Evolution from Evidence Based Medicine

Registering for FATS Bangkok 2019 is very easy. There are two payment options for registration.

Option 1

Step 1 : Log on to www.fats.my

Step 2 : Click on FATS Bangkok 2019 -Event Registration

Step 3 : Fill up information and click "REGISTER NOW"

Step 4 : You will be directed to Paypal site where you can now make payment via Paypal using any major credit cards . If you do not have a Paypal account you may sign up for a new account.

Option 2

Telegraphic Transfer (TT):

Company Name: FATS EVENT MANAGEMENT PTE LTD

Bank Name: Standard Chartered Bank

Bank Account Number: 01-0-713338-5

Branch Address: 6 Battery Road, #01-01, Singapore 49909
